Approach

While Mark's focus is usually CBT, LIVING YES, or EMDR, Mark uses an integrated approach to therapy, which draws on many disciplines. Mark has successfully assisted people with relationships, depression, anxiety, addictions, anger, psychological trauma, learning disabilities, and schizophrenia.

Mark believes psychotherapy is effective when the client is involved in collaboration with the therapist, and so he tries to adapt his style to your needs, values, and interests. It is essential that you are engaged in your treatment, and Mark welcomes you to ask questions and offer feedback as we work together.

Fees

Fees are discussed before or during the initial evaluation. Payment is due and paid at each session. Check with Mark to see if you are eligible to claim out-of-network benefits. Please let Mark know in advance if you would like an invoice, a "superbill", or a receipt.

Please understand that services are provided to you, the client, and not to third parties. Benefit information will be provided to third parties if you authorize it, which may require diagnosis or treatment plan information.

Cancellation Policy

Appointments are held exclusively for you. If you are unable to keep your appointment for any reason, please notify Mark 1½ business days in advance to cancel. You may email, text, or leave a voicemail to cancel.

Otherwise, you will be responsible for the full charge for the time reserved for you. You are aware that insurance companies will not pay for no shows.
